EARLY CHILDHOOD EDUCATION AND BEFORE & AFTER SCHOOL CHILDCARE PROGRAMS

The Bangor Region YMCA Early Childhood Education and Before & After School Programs offer an enriching, high quality and fun environment full of warmth, caring, and support. The Y's well trained staff are able to give attention to the individual needs of every child in an inclusive environment. The staff help children develop a positive, strong relationship with children and adult. Many opportunities are given for children to connect with each other to build relationships with their peers, allowing for self-esteem and self-confidence to flourish.

Activities within the curriculum are carefully planned to make the most of each day in a thoughtful and balanced way. The Bangor Region YMCA is proud to be a community-driven organization and offers opportunity for expanded developmentally appropriate learning opportunities which support cognitive, social, physical, and emotional outcomes for all children. In addition, these programs offer a balance of academic support, arts and cultural enrichment, recreation, and nutrition. Children are encouraged to develop their personal and interpersonal social skills and promote respect for others. By offering children experiences that excite through natural play and exploration, they learn to become life long learners.
